Gripper service packages for printing presses – Get a grip on it!

The grippers are among the press components which are most decisive for smooth and precise sheet transport. Any compromises with regard to the quality of the grippers will automatically lead to negative impacts on sheet alignment and guiding. The result: Quality problems such as colour deviations and doubling.

All our grippers and gripper pads were designed to meet the specific requirements of metal decorating by KBA-MetalPrint. Each individual gripper is manufactured to the highest quality standards, observing extremely precise tolerances. Furthermore, original KBA-MetalPrint grippers possess a special surface optimised for the handling of metal sheets. This guarantees perfect holding forces, a long service life and stable, register-true sheet transport.

With a gripper service package from KBA-MetalPrint, you are opting for top print quality and for the productivity and sustained value of your print production line.

You can currently secure our new gripper service package at a special price, e.g. from as little as € 40 000 for a four-colour Metalstar press. In that way you can enjoy savings of up to 35% compared to the regular price.

We would be pleased to send you an individual offer quoting an attractive price.

Simply contact the customer service office at KBA-MetalPrint by mail to:
spare-parts@kba-metalprint.de
or by phone on: +49 711 699 71-300.

Our recommendation

Have the grippers of your metal decorating press replaced and adjusted by a KBA-MetalPrint service technician. To this end, we have developed the gripper service package with its surprisingly favourable terms.

Our special service package includes

- all gripper tips and gripper pads for infeed drum, swing feed unit, impression cylinder and transfer drum.
- professional installation by a skilled technician

Installation work for the aforementioned services is included during the normal working hours of KBA-MetalPrint from Mon – Fri from 6 a.m. – 7 p.m. (max. 10 h/day). Travel and accommodation costs as well as daily travel allowances for the technician are not included and will be charged separately as incurred. All prices are subject to the addition of value-added tax at the legally stipulated rate.
